78	3,268	2,549	41'11"
100	4,191	3,269	46'10"

## About Us

Like all good stories, ours started in a farm welding shop. Jay Luthi, our founder, began building his first overhead cake bin in his dad's shop during the late 1970s for a neighbor. What started out as a favor grew into a local fabrication business. Today, FCS Mfg. (Farm and Commercial Storage Mfg.) serves several industries including agriculture, industrial, and commercial.
