MU1630	6,943	5,554	45'8"	75'

Based off of a 45 degree hopper. 60 degree hopper is available as well. Ask about our other sizes!

About Us

Like all good stories, ours started in a farm welding shop. Jay Luthi, our founder, began building his first overhead cake bin in his dad's shop during the late 1970s for a neighbor. What started out as a favor grew into a local fabrication business. Today, FCS Mfg. (Farm and Commercial Storage Mfg.) serves several industries including agriculture, industrial, and commercial.
